GREETINGS, 1940 . . .

We take pleasure in presenting this, our 1940 catalogue, to our many friends and customers throughout the entire country, and express our deep appreciation for the liberal support accorded us.

If the dahlias you are interested in do not appear in this list, write us about them. We grow many varieties not listed within.

Be sure to visit our beautiful gardens during blooming season. Late August and September sees them at their best.

Best wishes for a happy, successful year.

Our motto—"Once a customer, always a customer."

Very thankfully yours,

THEODOSIA METCALF

AL. C. EGGERT.

GENERAL INFORMATION

PHONES: { Office, UN. 3933
 { Gardens, LA. 1825

ORDER EARLY—Each year orders come in after the dahlias have been planted. Early orders are solicited to prevent disappointments in case the variety selected should be sold out. We do not substitute unless so directed. Again we urge you to order early, as the stock of some varieties is limited.

TUBERS—We offer strong, healthy field grown tubers. Government inspected.

PLANTS—This year we are offering green plants of the more recent introductions. A dahlia plant is a green growing plant three or more inches tall, with well established roots. These will develop into a good bush, bloom well and produce a clump of good roots for the following season's planting. When received the plants should be promptly set out. These will be shipped from the middle of May to first of June. Add 25c on orders for plants to cover extra packing costs.

SHIPPING—Unless otherwise directed, dahlia roots will be shipped from April 1 to May 1.

TERMS—Our terms are cash with order or C.O.D. On C.O.D. orders we request a substantial part payment when order is placed. Orders of \$1.00 or less, cash with order and if delivery by mail add 10c extra for postage.

ABBREVIATIONS—C.—Cactus; S. C.—Semi-Cactus (formerly listed as Hybrid Cactus); F. D.—Formal Decorative (double flowers with regular arranged petals); I. D.—Informal Decorative (those with curly twisted, irregularly arranged petals); B.—Show or Ball type Dahlias (these are fully double flowers, two or more inches in diameter.)

FRENCH LACINIATED CACTUS DAHLIAS

Created by Mlle. Cl. Leger, France, after years of study and rigorous selections. These very artistic flowers are wider at the end than at the base and have several claws which diverge in all directions. The petals interlace and roll, giving a fluffy appearance.

We have tried a number of these cactus dahlias, and offer the following at the special price of 3 for \$1.00:

SOUVENIR DE MAMAN LEGER—Buff, tinted mandarin, yellow reverse.

PROF. ERNEST DEAUX—Violet.

MLLE. HELENE MOSSAT—Orchid pink.

EARLY FLOWERING DAHLIAS

The following are dwarf growing and very free blooming. They can be grown in pots and forced to bloom in the spring. They are also fine for bedding purposes:

GERTRUDE —Sulphur yellow50
KATE —Deep scarlet75
EASTER GREETING —Small white semi-cactus...	.50
